Laptop Backpack from 13"-17,3"

If traveling for business is your thing, then this laptop bag is the ideal companion. From its subtly stylish, handsome exterior to its thoughtfully-organized interior, the Atlas backpack is designed to meet the expectations of even the most serious traveling professional.

In addition to featuring a Checkpoint Friendly design that makes passing through airport security a breeze, this bag also debuts Everki's innovative adjustable laptop slot with three separate panels that allow the user to set his or her desired size and secure using sturdy Velcro strips. This pocket holds a 13" Ultrabook just as snugly, safely, and easily as it does a 17.3" laptop, making the Atlas a versatile backpack suitable for any situation. Like many of Everki's bags, the Atlas comes equipped with a multitude of useful, highly-functional features which are typical for Everki.

- Checkpoint Friendly Design
- Felt-Lined iPad/Kindle/Tablet Pocket
- Quick-Access Magazine/Newspaper Pocket
- Spacious, Well-Organized Compartments
