Mode1:

## Installation for Android Based Tablet and Smart Phone

1. To open the quick settings panel, using two fingers, swipe down from the top of the screen.

2. To view the next tab, swipe left, touch Smart View.

3. Touch the Smart Cast you want to connect to.

# Installation for Windows Computer

1. If you have a computer with Windows 10 you can click on Windows key+ p or go to “Setting” and choose “Display”. If you see an option for “Connect to a wireless display”, your computer is Wi-Fi Direct ready.

2. If you see the above screen, click on “Connect to a wireless display”. Windows will now search for the device.

3. Click on the name “Smartcast-xxxxxx” and connection will initiate.

4. Once you have established connection Windows will cast your content to the big screen. This screen will indicate that the connection is now established and you can click on “Disconnect” when you on longer want to cast to your TV.

5. To disconnect, simply click on "Disconnect" and Windows will terminate the connection.
