

AXON ADSL Protector

Surge protection of ADSL terminal equipment

The **AXON ADSL Protector** is designed to provide surge protection of appliances connected to the ADSL telecommunication lines. This is perfect protection for a modem or access point. The effective surge protection is ensured by the use of modern protective components.

Technical data: **AXON ADSL Protector**

Nominal voltage U_N	120V
Maximum voltage U_C	150V
Nominal current I_N	200mA
Level of protection U_P (line-earthing)	$\leq 1000V - 1,2/50\mu s, C2$
Nominal discharge current i_N (line-earthing)	2kA - 8/20 $\mu s, C2$
Protected lines	3-4
Type of sockets	RJ11 (6P4C)
Housing	plastic
Length of the earthing wire	0.5m
Dimensions	66x60x30mm
Weight	0.08kg
Standards	EN 61643-21

The manufacturer reserves the right to change the technical parameters of the device, resulting from technological progress.
NOTE! Specifications define the maximum values of voltage spikes, against which the device is protected.
